1. **What was the most impactful thing(s) you learned this week and why do you think so?**

    I liked the fact that I have more control over the fonts size and weight. I have spent more than a few hours going through and comparing the different fonts that I can find on google and wondering what the best one to use is, in particular when there is a bunch of different weights for the same font. It makes such a big difference. Being able to have control of that on my own was a freeing and powerful feeling.

2. **What questions do you have about this week's chosen topic(s) and/or exercises (first-time students) or websites you are working on (repeat students)?**
    I didn't have any questions

3. **IWould you like specific feedback from your instructor? If so, what things would you like feedback on? (Please contact your instructor or use their method (such as Canvas calendar, email, Slack, or MS teams) to meet with your instructor or find out if they are having office hours.**

    I tried my best to make it into a page that is very similar to the actual page while also making it more readable in a online format, do you think I was able to accomplish that?

4. **Where would you go next to learn more about this week's topic(s)? Give 2-3 links to resources that look promising to help answer the questions you indicated in the quiz question above.**

    a. https://css-tricks.com/newsletter/259-how-to-use-variable-fonts/
    b. https://web.dev/articles/variable-fonts
    c. https://fonts.google.com/knowledge/using_type/styling_type_on_the_web_with_variable_fonts

5. **Did you participate with the class on Microsoft Teams or Slack? (You can participate by asking a question, answering a question, or sharing a resource you've found. Or you can share your thoughts on what you're learning this week. Or you can answer any questions your instructor might have given in their announcement.)**

    Yes I did

6. **Please rate your success with learning and this week's work on a scale of 1 to 4.**

    4

- Please rate yourself at the level you feel most closely matches your learning; 1 is the lowest rating and 4 is the highest.
- Feel free to use decimals if you feel you must.
- Your answers to questions 1 through 4 are your justification for your rating.
- This is most of your grade for your reflection, you also receive one point for submitting the other required items.
    - o   Your instructor won't grade your assignment until you submit the required items (screenshot, zipped files, etc.)
- If your instructor disagrees substantially with your rating, they can raise it or lower it to signal to you their expectations.
- If your instructor lowers your rating, your instructor might contact you to arrange a meeting to see how they can help you. Feel free to reach out to them as well.
